

DNCPhonecheck™

Do Not Call Compliance For On-The-Go Professionals

DNCPhonecheck makes Do Not Call compliance easy for on-the-go professionals such as real estate or insurance agents. As an optional service for DNCQuickcheck users, DNCPhonecheck offers the convenience of remotely checking the Do Not Call status of a phone number from a home, business or cell phone.

With DNCPhonecheck you can immediately verify the Do Not Call status of a phone number, checking against all relevant lists — no matter where you are! It's fast and simple to use. For more details and pricing information, call PossibleNOW at (800) 585-4888 or (770) 255-1020 or visit www.dncquickcheck.com.

How Does DNCPhonecheck work?

DNCPhonecheck is used as an optional service to a DNCQuickcheck account. It's as easy to use as 1 - 2 - 3!

- 1) To simplify use of DNCPhonecheck, you set up your own phone number — such as your cell phone number — as a log-in ID in your DNCQuickcheck account.
- 2) You dial a toll-free number to access your DNCPhonecheck account. The DNCQuickcheck application recognizes that number when called from that phone and automatically logs you into the service.
- 3) Voice prompts guide you to enter the phone number that you wish to check. You immediately verify if that phone number is callable or on a Do Not Call list.

DNCPhonecheck Features

- **Works with any phone — cell, business or home phone.** Ideal for busy professionals who are often away from their desktop computer.
- **Follow voice prompts step-by-step.** What could be easier! Handy voice prompts guide you through each step as you verify the Do Not Call status of a phone number.

- **Set up an automatic log-in to access your account.** Simplify use by setting up your phone number (such as your cell phone) as a log-in ID in DNCQuickcheck.

When you call from that number, you are automatically logged into DNCQuickcheck.

- **Leave "voice notes" specific to a particular phone number.** Jog your memory about a particular call by leaving a voice note up to two minutes in length. (*"This number is from a FSBO sign at a 2 story brick in the Twin Hills subdivision. Great curb appeal."*)

The DNCQuickcheck system stores these voice notes so you can retrieve and listen to them when you return to your computer.

You can download the voice notes to your computer's hard disk or store them in the DNCQuickcheck system.

- **View reports of your calling activity.** DNCQuickcheck maintains a log of all phone numbers checked through the DNCPhonecheck service. You can view this information in the Reports section of DNCQuickcheck.
